

Education in
Tuberculosis
& Other Lung
Diseases

Are you a healthcare professional, researcher, or student with a keen interest in tuberculosis and/or lung diseases? The e-TOLD webinar series is your opportunity to stay updated on the latest developments in these fields while connecting with peers and experts from Finland and Tanzania.

About e-TOLD: e-TOLD is a monthly, interactive webinar series designed to deepen your understanding of global lung health. Each session features two short lectures—one by a Tanzanian expert and one by a Finnish expert—offering diverse perspectives on current issues in clinical practice, research, and public lung health. The webinars encourage active participation, with plenty of room for questions and discussions.

Why Attend?

- **Global Perspectives:** gain insights from professionals working in both low-resource and high-resource settings, enhancing your understanding of global challenges in lung health.
- **Expert Speakers:** learn from leading experts in tuberculosis and respiratory medicine from Finland and Tanzania.
- **Networking Opportunities:** connect with international peers to foster collaboration and address health inequities.
